

## *South Georgia Native Plant & Wildflower Symposium*

The mission of the symposium is to

1. provide information and education about the native plants of our area and the benefits of using native plants in the landscape
2. promote conservation of native plants in the natural landscape, including
  - identifying Georgia's protected plants, and working to preserve them
  - purchasing plants from a reputable grower, not digging plants in the wild
3. provide information and education about invasive plant species, and how to help eliminate them
4. provide information and education about environmental issues impacting conservation of natural resources.
